Holistic Consultant, Krishna is dedicated to awakening and heightening conscious wide awake awareness in all through continued explorations on Life's Energy Fields, essential oils, water, soils, sound and light.

Krishna travels globally conducting lectures on the science, spirit and art of light, He offers experiential learning intensives, GDV training and retreats along with small group and individual sessions, enriching and empowering the lives of all he meets.

YOUR ESSENCE IS LIGHT

The image features two hands, palms facing each other, set against a solid black background. The hands are rendered with a glowing purple outline that traces the fingers and the main body of the hand. The palms and the inner parts of the fingers are filled with a vibrant red color. The overall effect is ethereal and luminous, suggesting light or energy emanating from the hands.

YOUR LIGHT ILLUMINATES THE WORLD

When we observe the play of light around the human body, drops of water or crystals, we understand that everything in the world has interrelationship and any object - biological or inorganic - has its own inner energy.

ELECTRO PHOTON IMAGING

EPI technology makes it possible to detect and observe the play of light around the human body, a drop of water or crystal, transforming analog information into useful and vital data that can be analyzed, applied and shared toward the integral wellness of the whole globally.

The principal tool of bio-electrographic observation, analysis, and verification is the EPI/GDV, developed by biophysicist Dr. Konstantin Korotkov of St. Petersburg, Russia.

SCIENTIFIC FOUNDATION

# GDV Light Reading

The EPI/GDV (Electro Photon Imaging) system provides non-invasive, immediate evaluation of energy, stress and vitality. In each case, the EPI scan can provide a broad spectrum of suggestions towards integral and whole being wellness.

The data from each test is converted to a unique “Photonic Profile”, which is compared to the data base of hundreds of thousands of data records using 55 distinct parametric discriminates, and charted so that it is available for discussion and analysis. A graph of the findings is presented as a two-dimensional image. To study these images, fractal, matrix, and various algorithmic techniques are linked and analyzed.

INDIVIDUAL

EPI utilizes a weak, electrical current applied to the fingertips for less than a millisecond. The body’s response to this stimulus is the formation of a variation of an “electron cloud” composed of light energy photons. The electronic “glow” of this discharge (invisible to the human eye) is captured by an optical CCD camera system and then translated into a digital computer file.

## Measuring Wellness

The EPC/GDV technique is accepted by Russian Ministry of Health as a Medical technology and certified in Europe. More than 1000 doctors, practitioners and researchers benefit from using this technology worldwide. More than 150 papers are published on GDV in over 40 different countries.

analyzed. In addition, the system provides instant graphic representations of the data to provide easy reference and interpretation. To further enhance the data in an understandable and meaningful manner, a further graphic representation is generated, placing the indicators within the outline of the human form, for ease of explanation and discussion.

## TESTIMONIALS

*"Krishna Madappa is a modern day alchemist, sage and scientist. He is skillful in the healing arts and spiritual sciences. He embodies health and wisdom. Time with Krishna is illuminating and joyful."*

**James O'Dea, former President, Institute of Noetic Sciences and author of bestseller Cultivating Peace.**

*I have had the privilege to know Krishna Madappa as a colleague over the past few decades. We share a common interest with Electrophotonic Imaging, a landmark invention by the Russian physicist, Dr. Konstantin Korotkov. Krishna possesses the rare qualities of a brilliant scientist and an individual who embraces spirituality with full authenticity. This combination of talents has led him along the path of continual discovery of the scientific basis of awareness and consciousness in order to serve humanity. It is an honor to have him as a colleague and friend.*

**Len Wisneski, MD, FACP**

*I am inspired, revived, and sustained by the results of my first session with Krishna Madappa and the GDV technologies. During our work Krishna demonstrated not only an extensive scientific expertise, but also a deep realization of ancient Vedic wisdom and healing practices. Krishna Madappa is a vital exemplar of the human of the future, in whom the integration of science and spirituality has found an unobstructed expression. This is the work that should be a part of every educational curriculum and every medical model in the world, for it taps into and utilizes both the cosmic laws of science and the infinite power of divine consciousness.*
